

Versatile Online Services Launches Minneapolis Painting Contractor Website

September 28, 2017

September 28, 2017 - PRESSADVANTAGE -

Versatile Online Services has recently announced that they have launched a new website for a Minneapolis, Minnesota painting contractor. The company states that the Versatile Home Services website offers interior and exterior painting and says that those who are interested can now visit the company online.

"It's hard to find a reliable contractor," says Versatile Online Services representative Jeff Mork. "You wouldn't think that finding a painter would be so hard, but there are a number of homeowners in and around Minneapolis who are constantly struggling to find someone to handle their painting needs."

Mork says that in addition to not being able to find a painting contractor, many homeowners have issues with trust. He states that not everyone who advertises being a reliable contractor is actually going to live up to the task and says that homeowners need to know what to look for when hiring.

"You don't just hire someone off the street," Mork states. "You want to check them out; check out their reputation and find out if they are indeed reliable or if you should just move on to someone else. That's where our website comes in."

Mork says that on the company website, home and business owners can read all about the company's credentials and get information on how to hire a contractor for a number of tasks. He states that those living in and around the Minneapolis area can contact the company for a quote for the painting services that they need and states that they always honor their contract quotes, something that he says many other contractors fail to do. He states that many contractors offer an initial estimate and then increase the price after they have started the job, leaving the consumer with an unanticipated higher bill.

The company website offers information on how to understand and compare estimates which Mork says can be invaluable when it comes to hiring a contractor for home or business painting needs. Home and business owners living in and around Minneapolis can now visit the painting contractor online to learn more about the company or to schedule a quote for services.
