

# **Vi-Tae Adds Cellulite Treatment Cream To Their Lineup To Meet Customer Demand**

*June 24, 2015*

June 24, 2015 - PRESSADVANTAGE -

Vi-Tae, Inc. spokesperson, Elizabeth Robinson, announced that they have released their Cellulite Treatment Cream, which will help smooth, tone and tighten skin at the request of their customers. Their product is available on Amazon, and she added that customers can also get a 50% discount once they obtain a coupon code from the company. In order to get the coupon code, customers need to go to [vi-tae.com](http://vi-tae.com), click on the "CONTACT US" link, and then to fill out the form located on the next page. Before clicking the "SEND" button, they also need to enter "SKINNY BOD" into the text field.

The Cellulite Treatment Cream by Vi-Tae can be used on all areas on the skin that are prone to cellulite, such as the stomach, legs, butt and arms. The way in which the cream works is by improving blood circulation and boosting collagen production. Elizabeth said that this is possible because of the two ingredients, castor and peppermint oil, that are found in the product.

She added that the Cellulite Treatment Cream can also help to tone and tighten the skin. One of the ingredients contained in the product that makes this possible is Rosemary leaf oil. Some of the other ingredients in the bottle which helps to make the skin feels sleeker and slimmer are green tea leaf powder, seaweed extracts and menthol. These three ingredients are said to have anti-inflammatory properties and can assist in flushing out and draining excess weight.

To date, the product has over 70 positive customer reviews. For example, one customer wrote the following review on Amazon,

"I had many expensive med spa procedures done in the past, and none of them works 100%. I decided to try Cellulite Treatment after I've read all the wonderful reviews. They are telling the truth and it's magical! This product is totally amazing and works great, my little love handles were secretly disappeared..., OMG I cannot believe it. This product is very strong, I thought my abs is on fire when I used the first time, and now I am on my second bottle, the burning feeling excited me because I know it's working. Thank you Cellulite Treatment, you are a real miracle worker."

Elizabeth said that they are also offering an extended one year, no questions asked, money back guarantee, because they have a lot of confidence in this product. She added that all of their health and personal care products, including this one, contain only natural ingredients so that customers can expect quick and safe results.

The Cellulite Treatment Cream, which is called "Skinny Bod", has been formulated for all skin types, and the company added that customers can safely use it on a daily basis for slimming & toning. For those who would like more information on the Cellulite Treatment Cream from Vi-Tae, please visit the company's Amazon storefront. Here, customers will be able to get full details on the features listed for this product, and they will also be able to read reviews written by those who have already purchased Skinny Bod. Interested parties can also visit the company's website where they can find other health and personal care products that Vi-Tae is currently selling.
