

Chevrolet And GMC Trucks Dealer Participates In Truck Month

October 10, 2017

October 10, 2017 - PRESSADVANTAGE -

Northwest Hills Chevrolet Buick GMC, a dealership in Torrington, CT, has announced its participation in Truck Month. In order to stand out from the competition, they have launched a special incentive in which all truck buyers this month will receive \$400 worth of accessories for free on their purchases. Full details about the incentive are available on the company website.

Sean Sullivan, general manager at Northwest Hills Chevrolet Buick GMC, says: "It's no secret that these Chevrolet and GMC trucks are some of the best built trucks in the world, and as we go into the cooler months, GM is offering some incredible savings on trucks for truck month. But my team and I realize that purchasing a vehicle is a very personal thing, and people like to make their vehicles unique, so we are offering truck shoppers during truck month a voucher good towards \$400 worth of accessories to help them customize their new trucks and make them more utilitarian."

The company offers a full range of Chevrolet and GMC trucks. They offer new, used, and certified trucks and SUVs and have over 100 vehicles in stock at present. On average, they always have similar numbers of trucks available so that people are almost guaranteed to be able to find the trucks they need. Meanwhile, all

trucks are also available with flexible finance options. In fact, as part of truck month, qualified buyers can receive special 0% for 72 months financing terms on new trucks that are available, another thing that sets the dealership apart from the competition.

As a known and respected dealership, Northwest Hills Chevrolet Buick GMC has a variety of other incentives in place, which are irrespective of truck month. For instance, they overvalue their customer's trade and encourage them to bring in their older vehicles so that they can receive some money off for their next one. The company encourages everybody to peruse their website at www.northwesthillsdealerships.com to take a look at their available stock, or to visit them in Torrington to see what is available in person and discuss the accessories package.
