Dr. Kappel has a wealth of experience. She graduated from UCLA and became a Clinical Instructor and Professor in Dermatology and Dermatologic Surgery. Throughout her career, she has been involved in stringent research in advances in dermatological science, which is where her passion lies. Born and raised in

Newport Beach herself, she knew that when she would eventually go into private practice, it would be here.

Since launching her clinic, Stefani Kappel MD has worked with hundreds of patients, who have all been very happy with the results of their procedures. This year alone, she has received 24 5-star reviews on Yelp, from men and women alike. One review, for instance, was left by Sean B., who says: "I just wanted people to know that Dr. Kappel is amazing. I cannot say enough good things about her. She is very patient and intelligent. She listened and responded to all of my ridiculous questions in a very thoughtful and thorough manner. She took her time with me, explained the treatment (v-beam), and she even went into depth about how the laser works when I had questions about how it worked on a more "technical" level. Thank you Dr. Kappel."

Anyone interested in Botox or lip fillers is encouraged to contact Dr. Kappel as soon as possible.
