

Next Women In Business Meetup Scheduled For October 17th

October 12, 2017

October 12, 2017 - PRESSADVANTAGE -

Emerald Coast Women in Business and Debby McKinney are proud to announce the schedule of a meetup, which will take place on October 17, 2017. More details about the event can be found at www.EmeraldCoastWomen.com.

Debby McKinney herself says: "We at Emerald Coast Women in Business are here to help women entrepreneurs, sales professionals and women starting a business in leveraging their potential so that they can thrive in business and in life. Women do business differently than men. This is one of the things that will be discussed at the upcoming event, and we encourage all women to sign up for it."

The event will have a particular focus on mentoring. It aims to empower women to be their best in both business and life. It will take place at 4507 Furling Lane in Destin, FL, at the Sea Dunes Realty. Various women have already indicated that they will be attending, but some places are still available.

Debby McKinney is a mentor, which is why this event is seen as her personal brainchild. She explains: "Mentorship is how every one of us grows. Life is an escalator, and we are either moving towards or away from success. The moment you coast, you start falling behind. People who don't mentor, typically don't see dramatic increases in income, happiness, or overall success. In fact, most of us default to a mixture of patterns that either benefit or sabotage us. Without the inspired aid of mentors, we keep manifesting more of the same, and ultimately only achieve mixed results."

The Emerald Coast Women in Business network organizes regular events for female entrepreneurs, and they offer an opportunity for all women in the area to grow and become the best they can be. Their events have always been very well attended, and women regularly discuss how much they have benefited from it. For instance, on www.facebook.com/ecwib, Sylvia G.B. says: "An excellent group of women that want to support and lift each other up in business." Other women have expressed the same feeling, appreciating the opportunity to connect, to work together, to learn from each, and to mentor.
