

LuxeOrganix Receives Excellent Reviews For Its Shampoo Curly Frizzy Hair

June 16, 2015

June 16, 2015 - PRESSADVANTAGE -

LuxeOrganix a Mesa, AZ based company has received National recognition for being a premier solution for women with curly frizzy hair by its customers and in recent reviews. The shampoo and conditioner has received high marks for helping to rejuvenate dry and brittle hair, and soften curls.

In an Amazon.com review, one customer shared, "I have been using the shampoo and conditioner for a week now and can't image ever going back to any other shampoo or conditioner brand. After the very first washing I noticed a difference in my naturally curling hair. My curls were softer and shinier and less frizzy. My hair feels fuller and is much more manageable."

Known for repairing dull and damaged hair, the luxurious shampoo and conditioner set contains a UV and thermal protectant with Vitamins and Antioxidants that nourish and repair dry hair from daily exposure to heat as a result of curling irons, blow dryers and straight irons. Users have reported that they have experienced hair that is shiny, healthy and more youthful in appearance.

What is more exciting is the fact that this shampoo and conditioner for curly frizzy hair contains a celebrity

secret ingredient: Argan Oil. Celebrities like Kelly Rowland, Jennifer Lopez and Nicole Richie have received amazing benefits from Argan Oil products. This oil is packed with fatty acids, making it one of nature's most effective anti-aging natural moisturizers.

LuxeOrganix Rejuvenating Argan Oil Conditioner gives optimal moisture for curly frizzy hair, thus keeping hair hydrated all day long. In addition, the Argan Oil conditioner is creamy and light; customers say it doesn't weigh hair down or make hair greasy. For people with hair that lacks structure, LuxeOrganix Rejuvenating Argan Oil Shampoo contains Vitamin B5, which is able to penetrate through the cuticle of the hair, resulting in hair that has beautiful structure. Furthermore, hair becomes more manageable and stronger than before.

The ingredients present in this shampoo and conditioner set are designed to help aid in curl definition, so users do not have to struggle to bring the curls out. As noted, this curl-enhancing hair solution also includes a UV absorber, which is designed to protect hair from heat and prevent fading of color.

Safe and Healthy:

Research has found that many shampoos on the market contain sulfates and other harmful ingredients that can cause serious skin irritation and an itchy scalp. Moreover, some products have been linked to cancer and cell damage as they contain nitrate compounds. "It's important to make sure your hair products not only give you support with your curly, frizzy hair," says LuxeOrganix Co-Founder, Christine Kominiak, "but that you're not sacrificing your health to achieve those soft, bouncy curls." Kominiak has said that this unique shampoo and conditioner set is one of the safest to use for all hair types since it contains no sulfates, sodium chloride or parabens. She has gone on to recommend this shampoo to those who have problems with frizzy and hard to manage hair.

After using the product for only a short period of time, customers of LuxeOrganix claim, "My hair feels wonderful and so much more healthy. No more static and it shines beautifully." Another satisfied customer shared that it "seemed to help with dandruff and dry, itchy scalp issues."
