FOUNDATION REPAIR | RAY TERRY- About Your House - Talks With Masserang Consulting and Piedmont Foundation Repair

October 13, 2017

October 13, 2017 -
October 14, 2017

Charlotte, NC ? Piedmont Foundation Repair is the Charlotte NC local go-to specialty contractor for foundation repair, slab leveling/mudjacking, helical piers, micro-piles, retaining wall stabilization and crawlspace ventilation. Chris Murrmann, owner of Piedmont Foundation Repair, and Michael Masserang from Masserang Consulting with more than 22+ years of foundation repair and crawl space experience stated, "The problems most residential and commercial clients in the Charlotte NC region face are water and expansive soil problems causing heaving or settling of the home?s foundation."

Most of the local foundation repair contractors are limited to a few techniques that their home offices ?push? to take care of ALL foundation problems that the sales representatives encounter. With engineering and contractor backgrounds, Chris and Michael have a multitude of techniques and specialty procedures to tackle ANY residential or commercial problems facing their customers.

The 3 hour discussion, recorded and available on Piedmont Foundation Repair and Masserang Consulting websites, took call-in questions that ranged from diagnosing foundation cracks, slab leveling, current technology used to support and level home foundations and numerous crawl space, basement moisture and retaining wall issues.

Those who have any questions about foundation problems, leaning basement walls, slab leveling or retaining wall stabilization should call Chris at https://piedmontfoundationrepair.com -(704) 401-4111 or Michael at https://masserangconsulting.com - (704) 787-6972.
