

Concord Chiropractor Offering Total Wellness Solutions Moves Office to More Central Concord Location

November 16, 2017

November 16, 2017 - PRESSADVANTAGE -

Carolina Totalcare, a chiropractic clinic in Concord, NC, is proud to announce that they have recently moved their office to a more central and convenient location:

331 Coddle Market Dr NW, Suite 110
Concord, NC 28027

Besides offering chiropractic care, they also offer massage therapy, muscular & sports rehabilitation, treatment after auto accidents, bio-identical women's hormone therapy and nutritional counseling. They have stated this is because they aim to offer total health & wellness solutions.

Dr. Geoffrey A. Rose, DC, from Carolina Totalcare, says: "As premier provider of chiropractic services, we take the time to educate patients about different treatment options, review test results, and empower them to take control of their health. We inform them where their health stands, what their treatment options are, and then put them in a position to make the best possible decision for their health outcome."

The Concord chiropractor is known for his dedication to the overall wellness of his patients for over 20 years in Concord and the surrounding areas. He ensures that each patient is properly informed about the treatment options that are available to them, and how they could benefit from them. Mainly, he gives them the chance to make their own choices in terms of their own health care. He also provides them with vital information on how they can enhance their own health and well being.

The total wellness solution is something that the clinic is highly respected for, as demonstrated by the many reviews for Carolina Totalcare on Facebook. Indeed, the clinic ranks as a 4.9 star chiropractic practice, which is a testament to the quality of care that people receive. Addie M.S., for instance, says: "I have had chronic back pain for over 15 years. Now that I'm on my third pregnancy my doctor recommended I come get an adjustment from Dr. Rose. After the first week I felt great. I could not believe my relief. It has been amazing the results of coming a few times a week at first and now once a week. It changed my life. I feel balanced. I can stand without being in pain. I can play with my kids on the floor and chase them more. As a mom expecting a little boy I sure needed to feel better."

People are encouraged to contact the clinic as soon as possible if they have any concerns about their overall health and wellness, especially if they have been in an auto accident, even a minor one, or are suffering from any other pain or health problem that may be related to the spine or nervous system.
