

Cleartronics Debuts Their Limited Availability FitFlux Running Belt For First Time

June 24, 2015

June 24, 2015 - PRESSADVANTAGE -

Cleartronics, a Chicago based company, have recently announced that they are releasing their limited availability running belt on Amazon and Etsy. As such they will be offering a 25% discount to celebrate this as well. As can be seen on <http://www.amazon.com/gp/product/B00T22I1VM>, the running belt usually costs \$39.99, but is currently available for just \$29.95. It is hoped that this will help more people experience the benefits of this running belt.

"Our running belt has been available on Amazon for some time now, where it has received various positive reviews", says company spokesman from Cleartronics. "As a way to say thank you to our loyal customers, and to attract new customers to our business, we have released the belt with a 25% discount for a limited time only."

The fitness running belt has also been improved in its design. It is a much wider belt than other similar models, allowing for more room for cash, phones, keys and various other types of valuables. The belt is simple, but it is also fashionable and elegant. It offers high degrees of comfort, as it does not chafe, bounce or jiggle while working out.

The belt has been designed to support various sporting activities, including walking, running, dog walking, biking or any other type of sport that requires the user to have their hands free. The belt is made of high tech Spandex-Lycra material. It is fully machine washable. Furthermore, it has been designed to look good, with a silver reflective trim and logo. This reflective trim also increases security, as it allows people to be seen on roads.

Since having been originally released, the belt has received numerous positive reviews. "I purchased about 8 months ago, and it still works like a charm", says Mark Johnson. "Items like keys, phone, wallet, stay snug inside and most of the time I don't feel them there. I use this for running, biking, motorcycle, and at the gym. I recommend this to everyone I come in contact with and they have nothing but good this to say as well.

I initially tried other products or glorified fannypacks, they don't even come close to the quality of this

product."

The belt, which is also featured on Etsy through https://www.etsy.com/listing/231617455/fitness-running-belt-6-high-quality?ref=shop_home_active_6, comes with four horizontal pockets and access openings. These are designed to fit a variety of products and even the largest phones available today will not fall out. Finally, Cleartronics is offering their belt with a full 30 day money back guarantee, no questions asked and they pride themselves on their high levels of customer service.

Working out is vital to overall health and well being. However, it can also be difficult to do this when people have to carry various belongings with them at all times. Thanks to the belt, this is no longer an issue.
