

Custom Printed Leggings And Capri Yoga Pants Now Available

January 25, 2018

January 25, 2018 - PRESSADVANTAGE -

DesignsByNuWorld is a business based in Warren, NJ that is well known for its innovative and high quality custom printing designs on hundreds of products. They are proud to announce the launch of their new custom printed leggings and Capris. Full details are available at <https://designsbynuworld.com/>.

"Our leggings and capris were designed for the woman who wants to workout or wear these unbelievably comfortable Leggings or Capri all day long and look great in them as well," says Lizzy Surowiec from DesignsByNuWorld. "We are so sure about this, that we offer a 100% money back guarantee, no questions asked, if you don't agree."

As the custom printed leggings and capris are new products, the company is now actively looking for help with the test launch. This means that they are looking for people to try out the new technology, which includes serge stitching for greater durability, as well as the 230 GSM polyester Lycra blend. Lizzy Surowiec adds: "The way these leggings and capris are created means that you will receive the 4-way stretch that gives that amazing comfort that people are looking for without the well known see through look."

The leggings and capris come in a choice of vibrant colors. They are available in a range of original and innovative designs, and feature their all-over print process. People are encouraged to visit to see the different design options or design their own at <https://designsbynuworld.com/>. The innovative technology means that they have "no show" stretch, which means that they do not become see through when worn. The clothes are true to size and the thread color matches the design of each individual item.

Lizzy Surowiec adds: "We will print anything you want on the leggings, Sneakers and T-Shirts. And don't forget you will have the worry free return policy to fall back on as well. We guarantee that you will never want to take these leggings off."

The company has also indicated they are committed to making the world a better place, which is why a percentage of every purchase will be given to the Red Cross. Lizzy Surowiec explains: "The events happening all over the world over this past year have been horrendous and the Red Cross has offered so much support. We want to show our gratitude for that."
