Meal Prep Service In Temecula Ca Receives Rave Reviews

November 15, 2017

November 15, 2017 -
SocalFRESH, which has recently launched a meal prep Temecula CA service, is proud to announce that, in the short time since they have been running, they have already received numerous rave reviews. Committed to helping people achieve better health through improved nutrition, the company has expressed satisfaction about the said reviews.

Cal Ajmal from SocalFRESH says: "Our goal is to help people eat healthy, balanced meals, using nutritious, wholesome ingredients. To make sure they can stay committed to this, we even cook the meals for them. The system is very easy to use and we are so happy to see that people are enjoying it. If we can play a role in helping even just one person become healthier, we feel we have been successful."

All SocalFRESH meals, as the name suggests, are prepared fresh. They offer customers several choices in terms of the meal plans. They have a choice of between five and 20 meals per week, and can also opt for a weekly breakfast package. They also offer custom meal plans that are specifically tailored to a customer's personal needs.

Jamie G. is one customer who has signed up for the service and has left a rave review on the SocalFRESH Facebook page: "This is a great service. I signed up 2 weeks ago, and I am so happy I did. I love the meals. They are delivered on time, customer service is great. I called before signing up to ask 5 million questions and Cal was kind, courteous and patient with my questions. I am a vegetarian, but mostly vegan, as I do not eat milk, butter, cheese or dairy, and try to eat lots of veggies and good clean eating."

One of the key things that people find so beneficial about the service is that they enable their customers to try the various healthy menu choices as well. This ensures that they do not receive meals that they do not enjoy after signing up to a service. Cal Ajmal adds: "We want to make sure that people are 100% happy with our service, as the customer is our main concern at all times."
