

Clarion Ford and Clarion Chrysler Dealership Moves to Former Bi-Lo Building

November 21, 2017

November 21, 2017 - PRESSADVANTAGE -

Clarion Ford Chrysler Dodge Jeep Ram, a dealership based in Clarion, PA, is proud to announce that they have opened their new showroom and service center in the former Bi-Lo Building on East Main Street. The store officially opened its doors on Monday, November 20, 2017 at 8am. It will be located just down the street from the former homes of the Ford and Chrysler Dodge Jeep Ram buildings. There will be a Grand Opening celebration scheduled for a later date. People are encouraged to view their Ford dealership website or their Chrysler Dodge Jeep and Ram website for current vehicles available.

Dave Eggleton, General Sales Manager at Clarion Ford Chrysler Dodge Jeep Ram, says: "We are very excited because we will be in one large building; not a Ford store and a separate Chrysler store, plus the new building is three times the size of our old stores combined. On top of that, the parking lot is much larger to display our wide range of vehicles."

"The 'Power of Two' will now have a physical location with more than six acres and a 50-car indoor showroom, making it one of the largest multi-line dealerships in North Central Pennsylvania," says Tracie Morris Kriebel, spokesperson for the company.

The move has been welcomed by the company's staff, and it has also led to an important expansion. Dave Eggleton adds: "The staff is very excited about the move and we have hired four new employees and plan to hire four more." Mainly, people are excited about the fact that they will be able to shop for numerous vehicle brands under one roof. Clarion Ford used all local construction workers to remodel the former Bi-Lo building and purchased most of the materials locally. "Brian Ganoe, from Hallstrom construction was the general contractor for the project. Louton's Plumbing and Heating was responsible for the HV and plumbing work, and Eric Kaiser did the tile work," says Eggleton.

The new dealership, located at 1305 East Main St, Clarion, PA 16214, has been made possible thanks to a local family, John Morris and his two children, who have been in the business for 30 years. His children, Tracie and John Jr., have continued the Morris family tradition of investing heavily in the community. They are committed to boosting the local economy. The Morris family also plans continued improvements, building on the practices that have already won multiple awards of customer service from Ford and Chrysler. Currently, both of the former Clarion Ford and Clarion Chrysler buildings are now for sale.
