

9 Rabbits Launches Baby Diaper Bag Backpack

December 05, 2017

December 05, 2017 - PRESSADVANTAGE -

9 Rabbits is a company that makes products for parents with young children and babies. They are proud to announce the launch of their very first product, which is the Diaper Bag Backpack. This product has been designed to be functional and easy to use, while at the same time offering fantastic style. The backpack is currently available on Amazon, where it has already received multiple positive reviews, ranking it as a 5 star item.

Caren Collins from 9 Rabbits says: "We're very excited to introduce our diaper bag backpack to the world. We believe every mom should be a yummy mommy, even when it comes to how to carry the mundane and boring stuff that comes with having children. Our backpack is designed to look stylish and fashionable, while at the same time being highly functional and practical, making life a whole lot easier for new parents. We're very happy to see that people are loving it already."

The baby diaper bag backpack allows parents to carry all their necessities along with them while keeping their hands free. As the bag comes in unisex colors, both mothers and fathers will have no problem carrying this backpack around. Featuring brushed gray fabrics, the neutral colors can complement any outfit.

The 9 Rabbits bag has been designed, above all else, for its functionality, however. Caren Collins adds: "It

features lots of space with 17 pockets across two large zipper closure compartments. You will be able to take all your essential necessities, and then some! Plus, for added practicality, we have ensured that the bag is waterproof and made of highly durable materials, so you don't have to worry if there is ever a spill. This bag will last a lifetime."

People are also encouraged to like the 9 Rabbits' Facebook page. In so doing, they can be kept up to date with further developments and product releases from the company. It is also an opportunity for people to share their experiences with the products and the company. Caren Collins says: "We love to hear from our customers, so do share with us how you have put the backpack in action."
