

9 Rabbits Launches New Website After Introducing Baby Backpack Diaper Bag

December 08, 2017

December 08, 2017 - PRESSADVANTAGE -

9 Rabbits is a newly launched company. They have just launched their flagship product, which is the baby backpack diaper bag, which they initially made available on Amazon. After experiencing tremendous success within days of the product becoming available, the company also launched their new website. The baby backpack diaper bag is now also available through the new website.

Caren Collins, spokesperson for 9 Rabbits, says: "We're so excited about our launch and so happy to see that customers already love us. As has been made clear on our website, we want to set ourselves apart by offering necessary, practical items, designed specifically for the modern parent. Our flagship product, the diaper backpack, was recently launched, and we've been overwhelmed by the amount of positive attention it has received."

The new website, which can be found at 9rabbits.com/, provides a clear overview of what the company is and what it stands for. The company aims to create products that are completely safe for parents to use around their babies, while also being stylish at the same time. Caren adds: "9 Rabbits draws on experience of having our own inspirations as parents of young children. We look for ways to make our baby products more savvy,

easier-to-use, and fun. By pushing the edge on so many levels, 9 Rabbits delivers higher standards of innovation, style, and safety that all parents would appreciate."

The website highlights the mission and vision of the company, discussing its motto, 'Trusted. Gentle. Innovative.' Those are the three key elements that 9 Rabbits focused on, aiming to create products that parents know they can rely on. Customers have already taken to the website to discuss how happy they were with the product, and with the company itself. "Never purchased such a well-made diaper bag," says Michelle A. "Bought this diaper bag for my husband because of all the extra compartments."

People are encouraged to visit the 9 Rabbits website to gain a greater understanding of what the company stands for and what it aims to achieve. Caren states: "We want to make a positive impact on the world, the future generation, and parents of today, in an ethical manner."
