positive customer reviews as seen here: <http://goo.gl/InxpS6> One customer expressed the following in their review on Amazon,

"I ordered this in the hopes that it would get me off my fat duff and start working out. Let me give you a little view of myself. I'm only 5 foot 2 inches and 160 pounds. Unfortunately, my body became round and I needed to start getting it shapely again. I have a bad ankle and had to have my ligament on the outside shortened because of too many falls. I thought it would be difficult to jump but it wasn't. I really, truly enjoyed it! I used this for a week before writing this review..."

Doron Peashov stated that their company's goal is to provide the best exercise equipment in order to maximize their customer's body ability. They added that they will do whatever it takes to keep the customers 100% satisfied, and the way in which they back this up is by offering a lifetime money back guarantee on their Premium Jump Rope. Doron also reminds customers that the included bonus and discount is available for a limited time, so to get access to them, they need to act soon. Another customer wrote the following review on Amazon,

"This is a fantastic professional jump rope. I got this for my granddaughter. She is into MMA fighting and training. She is one tough cookie. She wants to stay in shape and has wanted one of these jump ropes for a while. So she was thrilled to get it. This is no ordinary jump rope it's a fast speed jump rope. The cables are super thin and very light weight making it easier to use. It comes with an extra cable, screws, extra screws and a carrying case."
