

The Rhinoplasty Center Announces New Options For Rhinoplasty In Newport Beach

December 18, 2017

December 18, 2017 - PRESSADVANTAGE -

The Rhinoplasty Center in Newport Beach, California, recently announced that they now offer numerous options for rhinoplasty, including the revolutionary procedure known as Piezosurgery. Piezosurgery uses vibration to cut hard tissues in the nose, without cutting soft tissue like the skin.

Dr. Aaron Kosins, MD, plastic surgeon with The Rhinoplasty Center says, "We have had a lot of success with this particular procedure over the past two years. In addition to Piezosurgery, we also offer traditional rhinoplasty in a number of forms."

Dr. Kosins states that they offer primary rhinoplasty, which refers to the first operation that a patient has on the nose, before secondary rhinoplasty. The plastic surgeon says that when he consults with a patient for the first time, he strives to learn the three major issues that the patient has with his or her nose.

"People may dislike their nose for a host of reasons," says Dr. Kosins. "They may feel that it is too big in comparison with their other facial features, that it is crooked or it may cause problems with breathing. Whatever the issue, I want to know so that I can help patients to choose from our offered procedures and

ensure that they get the nose that they really wanted."

Dr. Kosins says that in all of the procedures offered at The Rhinoplasty Center, patient satisfaction is always the number one priority. He says that after the initial examination, he will take pictures of the patients' nose so that they and the doctor can sit down together to discuss their options. He says that every individual is different and not all surgeries are going to work for all patients, which is why the center offers a number of options for those who are considering rhinoplasty.

Those interested in learning more about Dr. Kosins and his rhinoplasty services, including his experience with Piezosurgery, can call the medical practice to schedule an initial consultation. More about these and other plastic surgery procedures offered by Dr. Kosins and The Rhinoplasty Center can also be seen on the doctor's official website at <http://therhinoplastycenternewportbeach.com/>.
