K P Malone, spokesperson for the company Inspired Grill Instruments, has announced that their Grill brush, which is being sold on Amazon, is receiving a large volume of positive feedback from satisfied customers. Currently, the product has received over 400 positive customer reviews and has a 4.8 star average rating. K P Malone said that this is great news for the company as it means that they are closer to reaching their ongoing goal, which is to provide a high quality product and excellent customer service. One of the main reasons for using Amazon as their fulfilling company is because of the fast delivery system that they have in place. Bob F, a customer who purchased the Grill Brush, wrote the following review on Amazon: "I love this grill brush. I have a large smoker/bbq that has multiple grills and frankly cleaning is has been a chore. I always like to clean the grill just after it has warmed up because it is easier then, but most of the brushes I have used in the past don't make it easy. This grill brush makes quick work of cleaning my grill. First off it is long enough

that I don't "burn" my hand even when the grill is hot. The bristles also wrap around the end so that it cleans all the surface areas..." The rest of the review can be found at the following URL: http://www.amazon.com/gp/customer-reviews/RBXPV74CYT60K/ref=cm_cr_pr_rvw_ttl?ie=UTF8&ASIN=B00LFN9DPY

The Barbecue Grill Brush by Inspired Grill Instruments is stainless steel and has a 16 inch long handle. The company stated that it has been firmly interwoven and has flexible bristles which allow the brush to reach every crevice in a grill very easily. Inspired Grill Instruments is also offering a free e-book to all customers who buy their product. The book comes with 24 dishes to help customers get more from their BBQ. There is also a 100% money-back guaranteed, with no questions asked if any customer is not completely satisfied with the product.

Another customer, E.A Gray, wrote the following in their review: "Finally! After over fifteen years of using various types of grill brushes it's so nice to find one that accommodates all of my demands. I've had square straight bristle scrapers all the way to the types that resemble toilet brushes, and every one of them tend to fail after a short period of time. I'm hard on my brushes because I use them a lot on my outside grill and my RV grates. The problem that I've found to be common in all my prior brushes was their inflexible scrub wires that would flatten or pull off after just a few good uses..."
