

Start Your Own Business Information Released By Rapid Crush, Inc.

June 26, 2015

June 26, 2015 - PRESSADVANTAGE -

Rapid Crush, Inc., an online marketing business in Valencia, CA, have recently released new information designed to help people create information products in 2 hours or less. Rapid Crush Inc. was set up with a simple goal: to help create effective software solutions for online entrepreneurs. They believe their new start your own business information will help to achieve that.

"We specialize in using WordPress, Facebook, Cloud Computing, Content Distribution Networks and more to create and deliver our products", says John S. Rhodes from Rapid Crush, Inc. "Through our knowledge and experience, we want to help people achieve their own home business, living the lifestyle by creating their own information products."

Working from home is a dream come true for many people. Traditionally, however, it meant making physical products. Arts and crafts were always very popular, for instance, and there were also jobs that involved stuffing envelopes or boxes for mass marketing campaigns. Rapid Crush, Inc. wants to help people move away from these traditional work from home jobs, focusing instead on how to be an Infopreneur.

"Essentially, an infopreneur is someone who sells information", adds John S. Rhodes. "This means that they do not have to create a physical product, but rather work by delivering pieces of text and content with high value information. The internet is basically a huge library of information. People go there to learn about different things. An infopreneur is someone who delivers that information and we want to teach people how to do that."

Creating products requires a certain talent and insight. It also means finding a certain niche and coming up with something that has never been done before. In today's day and age, that is almost impossible to achieve. Everything is already available and nothing surprises people anymore. But what people do want today, it seems, is knowledge. Hence, instead of creating physical products, the goal is to create information products.

Rapid Crush, Inc. has released a free report called "eProduct Creation Secrets". Essentially, it teaches people how to create high quality information products in 2 hours or less. Indeed, no prior experience is needed, nor is any proof. To access the report, people are asked to leave their name and email address, after which the report will be sent out to them. Rapid Crush, Inc. believes it is the most effective way yet to make a killing online.

Living the working from home lifestyle is within anybody's reach. It does not mean never getting dressed again and becoming a hermit for very little pay. Rather, it means taking pride in a job and enjoying the life it permits. This is what Rapid Crush, Inc. wants to make a reality for more people around the world.
