

Minneapolis Home Remodeling Contractor Launches New Website

December 20, 2017

December 20, 2017 - PRESSADVANTAGE -

Total Home Remodeling, a division of Versatile Services Online, has announced the launch of a new website that will focus on the Minneapolis, Minnesota area as well as customers in St Paul, the Twin Cities and throughout the Minneapolis Metro area. The company offers total design and build services to meet a number of customer needs.

"Our goal is to help you on your quest to live in the home of your dreams," says Jeff Mork, a representative for the company. "Whether you want a kitchen remodel or you just want to change your flooring, we can help you to get the home that you have always wanted and we are completely dedicated to your satisfaction."

The company provides remodeling as well as design services. Mork says that if a homeowner is not sure of what he or she wants, his team can help design something unique that fits in perfectly with the homeowner's vision. Mork adds that they only use quality products from the most trusted vendors to ensure that customers receive not only the best design, but the best overall remodeling as well.

"We can completely redesign your entire home or just help you to replace your outdated shower with something that will really improve the design of your bathroom," Mork states. "We specialize in kitchen and bathroom remodeling but we can tackle any remodeling or design job that you may have in mind, from bedrooms to decks."

Mork adds that they also provide complete basement renovations and remodels to turn ordinary basements into living spaces, and they offer room additions as well. The company works with homeowners to create a design that they are satisfied with and then completes the remodeling within a specified timeline, ensuring complete customer satisfaction. Mork states that their new website offers more information about the specific services that they offer, as well as testimonials from past customers and a guideline for hiring a remodeling company, along with other helpful tips and articles.

Customers in these new areas who are interested can visit the website to learn more and possibly schedule

an in person home estimate and consultation.
