

## **Anti Odor Sport Launches Best Compression Socks**

*January 08, 2018*

January 08, 2018 - PRESSADVANTAGE -

Anti Odor Sport, a business in Sheridan, WY, recently launched their compression socks on Amazon. Since then, these socks have been hailed as the best on the platform. In a very short period of time since the launch, the product has received 10 unique reviews, all of which gave it a five star rating.

Janet Johnson from Anti Odor Sport says: "We can't thank our customers enough for their support. Launching a new product is always tense and while we knew our compression socks were highly effective, having this confirmed by our customers is truly wonderful. The best thing of all is that we know that people are now much more comfortable overall."

The company has stated that they have worked very hard to make sure that their product would come out to be the best compression socks available in the market. They ensure that wearers can recover from soreness much more quickly, be that after standing or after traveling for long periods of time, or after taking part in sports. The gentle compression has been designed to reduce swelling very quickly, improving overall circulation.

Furthermore, Anti Odor Sport, as the name of the company suggests, has used a special wicking fabric that is breathable, leaving the feet comfortable and dry all day long. Added to this, they are completely seamless

so that the chances for chafing and blistering are reduced. In fact, even during an intense workout, the socks have been observed to stay fully in place.

Reviewers have hailed the socks for their level of comfort and their ability to rapidly make feet feel much better. "I was really surprised that they make such a big difference with swelling and fatigue and they are definitely easier to put on than I thought they would be. My feet feel so much better after I have these socks on. They stayed dry and I didn't notice them getting hot which I normally do. I use them for travel and exercise and they feel amazing..." says an Amazon customer.

Now that the socks are listed as the best compression socks on the Amazon marketplace, many more people have become interested in them. For Anti Odor Sport, this means more people will be both comfortable and safe.
