

Newport Beach Rhinoplasty Center Uses Piezosurgery For All Procedures

January 10, 2018

January 10, 2018 - PRESSADVANTAGE -

The Rhinoplasty Center, based in Newport Beach, CA, is proud to announce that they now only use piezosurgery in all their rhinoplasty procedures. Dr. Kosins has used this technique successfully for two years now, and no longer wishes to return to older, more invasive methods of performing this surgery. Patients and professionals alike agree that Piezosurgery is far superior.

Dr. Aaron Kosins from The Rhinoplasty Center says: "Piezosurgery is a revolution in rhinoplasty. There is no better way to say it. For over 2 years I have been using piezosurgery in all of my rhinoplasties, and the results for my patients has been outstanding. Popularized by myself, Dr. Rollin Daniel, and our French counterpart, Dr. Olivier Gerbault, piezosurgery is the most disruptive technology to happen to rhinoplasty in over 20 years."

As shown on The Rhinoplasty Center's website at <http://therhinoplastycenternewportbeach.com/>, Dr. Kosins and Dr. Gerbault have worked together very closely to perfect the piezosurgery technique. So much so, in fact, that they were published in the Aesthetic Surgery Journal. Furthermore, over the past few years, both doctors have presented their experience at various international annual plastic surgery meetings, showing

other professionals the benefits of this technique.

"Piezosurgery uses ultrasonic energy (vibration) to cut hard tissues," explains Dr. Kosins. "Many patients are terrified that a surgeon will have to 'break their bones'. Standard instruments are over 100 years old and literally use a hammer and chisel to break your bones so they can be moved and narrowed. Now your bones can be gently sculpted and cut with less bruising and less swelling. It has been proven that piezosurgery shortens recovery, in fact."

Those who have had procedures completed by Dr. Aaron Kosins have been full of praise about their results. Shel R., for instance, says on the clinic's website: "There is a reason Dr Kosins has outstanding reviews. He deserves the 5 star rating. I'm very happy with the overall experience and results of my rhinoplasty. No longer do people have to go through almost barbaric procedures to have the nose they like. Thanks to piezosurgery, they can do so quickly, safely, and far more gently."
