Pop A Lock is a national franchise that has very high expectations for each of its offices. The Houston team has been proving itself to be some of the most trusted around, and they are now serving as an example of best practices for the other franchises. The service covers automotive, residential, and commercial locks, offering a full service, including 24/7 unlocking, high security lock installation, and emergency car unlocking. Furthermore, all technicians are trained and certified.

Those who have worked with the company in the past have been very happy with the service they have received. Charlene R., for instance, says on the company's Google Sites page: "Superior service every time

Andrew Rick and the newest member Vivian exceptional work every time. Thank you very much for your quick service and your easy going team. I will recommend you to everyone."

Hiring a locksmith, for many, is quite a complicated endeavor. On the one hand, they want someone to come out straightaway because a broken lock means either that they cannot get into their own property, or that anybody can get inside. On the other hand, it means putting a lot of trust in a stranger, as they will get vital information on the locking systems installed in certain properties. Gregory Graham adds: "We understand that you need to be able to trust us. This is why we are all fully trained and licensed and carry our identification with us."
