January 16, 2018 - PRESSADVANTAGE -

Manhattan Beach-based Cancer Journeys Foundation Announced that it has been nominated for a 2018 California Innovation Award for its work in developing an innovative Internet-based prostate cancer early detection tool.

Manhattan Beach, California: January 18, 2018. Manhattan Beach-based Cancer Journeys Foundation Announced that it has been nominated for a 2018 California Innovation Award for its work in developing an innovative Internet-based prostate cancer early detection tool. The California Innovation Awards honor innovative companies and individuals the state of California who are providing a local, regional, state, national and international economic impact through innovation.

Each year, the California Innovation Awards honor ten categories, including Consumer Electronics, Consumer Goods, Education, Energy & Sustainability, Health & Medical, Media, Professional

Services, Science, Technology, and Transportation. Each category may have subcategories.

Products and services are judged on their overall value and impact through carefully vetted judges.

?We are honored to have been nominated for a 2018 California Innov

ation Award for our development of the ProstateTracker early detection system. Prostate cancer is the most common male cancer and kills almost 29,000 men each year because they find out they have the disease too late for effective treatment,? said Robert Hess, Cancer Journeys Foundation president.

According to Hess, ?We wanted to develop a very simple, cost-effective early detection solution that would be available to all men and their families at no cost. We teamed with Infobridge Solutions to develop the Internet-based ProstateTrackerApp that uses the PSA blood test to make a man?s prostate cancer risk clearly visible. We're delight to say that ProstateTrackerApp is anonymous and free.?

About the Cancer Journeys Foundation

The Cancer Journeys Foundation provides a comprehensive digital information center for cancer survivors, their families, and caregivers. The Foundation?s mission is to provide the tools and community cancer survivors need in order to have the best possible quality of life as they move through their cancer journeys. The Cancer Journeys Foundation leads the biennial Tour de USA rally for cancer awareness.
