Pensacola Sewing Shop Launches Quirky Quilter Angels Contest

January 31, 2018

January 31, 2018 -
Martelli Enterprises, based in Pensacola, FL, is proud to announce the launch of the first 2018 Quirky Quilter Angels Contest. People can nominate those who love to quilt and who focus on giving back to others through the Martelli Entreprises website on martellinotions.com. This month, the prize is a five piece Skini Mini Set.

Marsha Martelli, owner and founder of Martelli Enterprises, says: "If you know someone who loves to quilt, who works hard and looks after others before themselves, and who always gives back, never wanting anything in return, we would like you to nominate them as your Quirky Quilter Angel. We recognize the country's most wonderful quilters each month, donating one of our products to them."

In order to nominate someone, details of who they are should be provided, and mainly an explanation of why they are deserving of this prize. At the end of each month, representatives from the fabric stores go through the nominations, choosing the one they feel is most deserving. They are then contacted directly, and a Martelli product is sent out to them.

In October 2017, the winner was Mogie Sabine from Spokane, WA. Marsha Martelli explains: "Mogie has

made a huge difference in the lives of the women in her group, giving them a social outlet and a way to donate their talents to local charities, as well as in the lives of the recipients who are lucky enough to receive one of her quilts."

The quilt shop itself is known not just for their amazing work on giving back to the community and recognizing Quilting Angels, but also for their fantastic products. Indeed, this is why the monthly prize is so coveted. Brenda G., for instance, explains: "I love your mats, rotary cutters, blades,... well just about everything you make and sell."

Others have shared similar sentiments, expressing how beneficial the various Martelli products are. Their cutters are proving to be particularly popular. People praise the fact that they last a lifetime, and also that they don't cause wrist stress and can therefore be used even by those who have arthritis.
