

Protea Products Inc Releases Golf Umbrella

February 08, 2018

February 08, 2018 - PRESSADVANTAGE -

Protea Products Inc, a business in Dover, DE, has announced the launch of their new golf umbrella. The company itself is quite new, and the umbrella is their first product. They are happy to see that it has already gathered a lot of attention and is quickly heading towards becoming a best selling product.

Brad Purse from Protea Products Inc says: "We wanted to create an everyday item and make it better. Most of us have umbrellas in our cupboards, but they tend not to be fit for purpose. We wanted to create something different that is perfect for all types of outdoor pursuits, and that people can rely on to function properly. We're very happy to see that we have succeeded in achieving this."

The golf umbrella's primary purpose is to protect the user from the elements. It is both waterproof and windproof, while also offering UV protection. The handle is ergonomically designed and feels very soft, allowing for a comfortable hold even if one has to carry it for long periods of time. The umbrella itself, meanwhile, is made of fiberglass with reinforced shaft and ribs, which makes it both lightweight and highly durable.

"One of the features we're most proud of is the ease with which this umbrella opens," adds Brad Purse. "It has a one button automatic opening feature, which means you only need one hand to quickly open the

umbrella. You'll never get caught out in a sudden rainstorm again."

The material of the umbrella dries very quickly. It uses a micro-weave material, which is ultra water resistant. This ensures that the umbrella will not get moldy, nor will it ever shrink. It also means that it can be folded away straight after use, instead of having to be left open to dry somewhere.

Protea Products Inc is so sure that they have developed the best golf umbrella that they offer it on a completely risk free offer. They offer a no questions asked money back guarantee to all customers. Brad Purse says: "I know this is the last umbrella you will ever need. If you don't love it, we'll give you your money back."
