

## Happy Life Pets Launches Pet Seat Cover For Travel In Style

*June 29, 2015*

June 29, 2015 - PRESSADVANTAGE -

New Hampshire based company, Happy Life Pets, has announced the launch of their latest product, pet seat covers. The slogan for the company reflects the new product, which is designed to protect pets and the vehicle during travel; it states: "Happy Life Pets - Helping pets travel in style." The pet seat covers are now available through the company's online retail portal, although Happy Life Pets has encouraged anybody interested in learning more about their brand and following new upcoming products and promotions to follow them on their social media platforms, such as Facebook.

The new product is described as being quick and easy to install, with four straps to attach to the headrest using quick clip buckles. The cover crosses the entire back seat, giving pets little room to slip down into foot wells, or dig between seats. The dog seat covers are reported to make trips with pets easier, mess free, and safer. The company says the following regarding the usefulness of these covers during travel: "Here at Happy Life Pets we know how much you enjoy traveling with your pets. We know this because we travel with our dogs all the time. When traveling with your pet they do require some special items so they can travel safely and to keep the vehicle clean. Our 1st product the Pet Bench Seat Cover helps keep the entire back of a vehicle clean."

Although the covers are being marketed toward pet owners, Happy Life Pets has suggested that they may have other uses for drivers without dogs or other animals. The product also reportedly make a superb barrier between dirt and upholstery when transporting tools, plants, gardening supplies, sports equipment, or anything else that may leak, contain dirt, or spill onto the seating. The company believes so firmly in the quality of this product that they have offered those who purchase it a 100% customer satisfaction guarantee. They explain: "We provide pet owners with excellent quality products. Built to last and stand up to the abuse of your pets. All our products are covered by our Satisfaction Guarantee. The Satisfaction Guarantee is simple - If you are not satisfied then immediately contact us so we can fix the problem or send you a refund. Our world class customer service is there when you need it"

The pet seat cover can be used with passengers in the vehicle, or to anchor a pet harness by utilizing the two Velcro openings in the material. This provides access to seat belts, which may be necessary during travel if human companions are accompanying animals in the back seat. As a car seat protector, the company believes that this is far superior to competitor brands, and that it is truly unique due to many of the above mentioned characteristics.

Waterproof pet seat protection can be purchased from Happy Life Pets through their online retail location for \$33.68. They also invite consumers to visit them on their website to read more about their products, guarantee, and company motto.
