

Boise Landscapers Announce Services For Custom Landscaping And Concrete Curbing

July 03, 2015

July 03, 2015 - PRESSADVANTAGE -

Legends Landscaping Boise has announced that they are providing custom landscaping and concrete curbing services to residential and commercial clients in Boise and the Treasure Valley.

The company stated that their services include sod installation, sprinkler system installation in Boise, paver patios and concrete curbing, and more. Besides already building a great reputation as being one of the top companies to go to for the above-mentioned services, the company is also a certified member of the Idaho Contractors Board (ICB), Idaho State Department Of Agriculture-NurseryMan (ISDA), Professional Applicator (IDSA), Boise Metropolitan Chamber Of Commerce, and BBB.

Interested parties are encouraged to go to the company's website and request a quote. Here, they will be able to fill out a form and submit their contact details and project request to the company. Upon receiving the information, the Boise Landscapers said that they will then contact the potential client as soon as possible in order to schedule an appointment. Regardless of the type of service their clients require, such as

sprinkler/irrigation system installation, installation of fire pits, BBQs or fireplaces, landscaping lighting, pond design and installation, and many more, the company has stated that it will consistently provide professional craftsmanship and customer service.

Ken from Boise, Idaho, wrote the following testimonial on the company's website: "They were knowledgeable courteous and clean and in uniform. I had them design a yard for me and it is fully functional, with a water feature, patio, and fire pit. I am ready for summer BBQ's! I have already had my mom call them to help with her yard."

The installation of concrete curbing borders is one of the company's specialties. Legends Landscaping Boise says that concrete curbing is the perfect long-term solution, and they can design extruded concrete that can follow any curves that their clients' landscape demands. Legends Landscaping Boise said that concrete curbing is an excellent solution for reducing yard work, adding value and curb appeal, controlling stubborn areas and accentuating a client's property. To ensure high quality craftsmanship, the company will mix and form the concrete curbing at the jobsite, as they say this creates the best custom look.

Legends Landscaping Boise is a fully licensed and insured landscaping company, and they are able to take on any size landscaping project that can range from those that are small residential to large commercial.
