Perfect Nail Solution Highlights the Best Essential Oils for Treating Toenail Infections

February 16, 2018

February 16, 2018 - PRESSADVANTAGE -

Irwindale, California: Perfect Nail Solutions has released new information regarding essential oils that are great alternatives for treating toenail infections.

Toenail fungal infections or nail onychomycosis is a nasty condition that leads to brittle and green nails that can cause immense pain as well as nail deformity. Traditional medicines often fail in treating this condition as it tends to recur in a patient fairly quickly. According to Allen Farrar, a spokesperson at Perfect Nail Solutions, "Aromatherapy is often recommended for people suffering from toenail infections, as it uses essential oils that can effectively treat fungal and bacterial infections."

Tea tree oil is an essential oil that may be used for treating fingernail and toenail infections. In a study published by the National Institute of Health, 117 participants of a study were used to measure the effectiveness of 100% tea tree oil solution in comparison to 1% clotrimazole in treating toenail fungal infections. The results were found to be comparable, with 60% of the patients responding positively to a tea tree oil treatment as compared to the 61% that were positively affected by the clotrimazole.

Oregano oil is another essential oil that is commonly used for treating this condition. It kills fungi and bacteria with ease and can be mixed with tea tree oil to make a potent treatment. Orange essential oil may also be used to provide quick relief for pain, especially when mixed with a vinegar and alcohol solution for treatment.

Another essential oil that has anti-bacterial properties is lavender oil, which may help in treating mild cases of nail onychomycosis. It can be used as an overnight treatment and should be applied straight to the affected area to eradicate any fungal growth.

Perfect Nail Solution has developed a unique 2 step anti-fungal treatment for toenail and fingernail infections and is made using essential oils such as lemon oil and tea tree oil to provide a natural remedy for nail onychomycosis. To learn more about the product, visit Perfect Nail Solution's official website or check out its storefront at the Amazon Marketplace.
