

Minneapolis Gutter Cleaning Company Expands Service Area

March 01, 2018

March 01, 2018 - PRESSADVANTAGE -

Gutter Maids, a Minneapolis gutter cleaning service, is proud to announce that they have expanded their service into the MN South Metro. The new service area now includes Chanhassen, Eden Prairie, Bloomington, Edina, Burnsville, Apple Valley, Eagan, Lakeville, and South St Paul, MN. Known as the area's provider of the most reliable roof service, residents in the new service area have already shown a great deal of interest in the expansion.

Mike Braun from Gutter Maids says: "Gutter cleaning is hugely important, something that many people don't realize. Gutters serve as a means of controlling how rainwater flows around your roof, foundation, landscaping, as well as other elements of your home. They should be cleaned at least annually, but preferably more often. We have seen that there was a big gap in the market for the South Metro area and we now aim to fill that."

Some significant issues can exist as a result of insufficient gutter cleaning. This includes water backing up on the roof, overflowing gutters, rodents and animals setting up home, mold growth, and early rust. Gutters should be cleaned twice per year. While most homeowners only have their gutters done once every year,

Gutter Maids wants to stress that it is the bare minimum. Mike Braun adds: "During the wintertime, you can expect your gutters to be high in snow and ice should you live in a place where temperatures reach below freezing. This can be different from having pouring rain enter your gutters considering that the rain is usually flushed right out. You'll need to have your gutters cleaned and prepared to handle the snow."

Those who have worked with Gutter Maids in the past have been very pleased with the service they have received and have generally signed up to more regular cleaning. Mary K., for instance, says on Google: "Great job, quick service. Very professional. I was very pleased with the quality of the work and will be scheduling again this spring once the snow melts."

People are encouraged to watch the videos at Gutter Maids' YouTube channel for further information on the services that the company offers and the service areas that they now cover.
