Jim Butler From The Butler Law Firm Is Now DUIDLA Accredited

March 14, 2018

March 14, 2018 -

Butler Law Firm, based in Houston, TX, is proud to announce that their very own Jim Butler is one of three attorneys in the country who have been accredited by DUIDLA as a specialist in DUI/DWI. He has been practicing law for over 25 years and is known for how he handles each client as if they were members of his own family. His main focus is on DWI cases, which now make up 100% of his cases, and he goes above and beyond for each of his clients.

Jim Butler himself says: "I help my clients get out of jail time where they could have lost their jobs, causing themselves, and their families to suffer both financially and mentally. I do not not endorse drunk driving but I do believe that many innocent people are needlessly arrested. In fact, this is a major reason why I became a DUI lawyer and why I continue to be devoted to being the best I can be. Receiving DUIDLA accreditation is just one of many steps I have taken take towards that."

Receiving accreditation from DUIDLA is a complex process for which many requirements have to be met. Jim Butler had to pass a Board Certification Exam and he had follow the rules from his own jurisdiction in terms of how he can advertise his designation. The process to apply for accreditation was incredibly lengthy and the

examination was highly complex with a hard to meet pass rate. Jim Butler's dedication is clearly evident from that.

Indeed, many people see him as the best DWI lawyer in Houston, which iss also evident from the many reviews he has received. Jennifer M., for instance, says on the firm's Google maps page: "Great attorney. Lots of experience. Straight forward, easy to communicate with. I learned a lot through out the process. Highly consider Jim Butler as your attorney."

Butler Law Firm has received numerous other positive reviews, including on AVVO, which is the official reviewing website for lawyers and legal professionals. All clients state just how happy they have been with the work that Jim Butler had done for them.
