

Cruvina Shatterproof Plastic Wine Glasses Are Great For Easter

March 16, 2018

March 16, 2018 - PRESSADVANTAGE -

Cruvina, providers of shatterproof plastic glassware, announced today that their Tritan plastic wine glasses are suitable to grace the Easter dinner table.

"The Easter holiday is fast approaching," says Co-Founder Erin Moore. "At this time many families come together to celebrate. Often this involves sharing a meal and drinks. There are so many ways that our Tritan wine glasses can make this wonderful occasion more enjoyable.?"

Cruvina plastic wine glasses are made from Tritan plastic, a high-quality, food-grade, BPA-free polymer that looks like glass. They are odor-resistant and stain-resistant. They maintain their crystal clear look after repeated use and washing. The wine glasses have an elegant stemless design that fits comfortably in the hand. Due to the shatter-proof nature of the plastic, Cruvina wine glasses can be used safely in any setting.

Because of all of these qualities, the wine glasses could be used in any of these ways: To serve cocktails prior to the meal, to serve wine at a formal, sit-down dinner, to serve water, juice or soda to the children, to serve drinks at an informal Easter celebration, such as a back-yard bar-b-que or picnic, or to serve parfait, pudding, trifle or ambrosia desserts.

Says Ms. Moore, "These are just some suggestions. How Cruvina wine glasses can be used to enhance your Easter Celebration is limited only by your imagination. These glasses also make a beautiful and practical hostess gift."

The set of four 13-ounce Cruvina wine glasses is available on Amazon.com and comes with a 30-day money-back guarantee.
