

BarrWood Cabinets Announces Grand Opening of Alpharetta, GA Showroom

March 19, 2018

March 19, 2018 - PRESSADVANTAGE -

Atlanta, GA ? Homeowners can now see and touch Wellborn, Mouser, and KraftMaid cabinetry in person as they plan their kitchen and bath remodeling and building projects when they visit the new showroom located within Giovanni?s Tile and Design in Alpharetta, Georgia. The showroom is open to the public and will celebrate its grand opening on March 22, 2018.

Spokesperson Spencer Ripley expressed enthusiasm about the new 5,000 square foot showroom, stating, ?We are excited for the public to be able to have a hands-on experience of our kitchen cabinets, bathroom vanities, lighting, faucets, countertops, sinks, showers, and bathrooms. Being able to see these products first-hand eliminates the risks that come with making a significant investment without first seeing these products displayed.?

Ripley continues, ?This showroom embodies the mission statement of one of our manufacturers, Wellborn Cabinet, Inc., which says in part, ?Our passion for discipline allows us to achieve excellence in our performance."

The Alpharetta showroom is located within Giovanni's Tile Design, Inc. 270 St. Claire Drive, Alpharetta GA 30004, and is open Monday through Friday from 10:00 ? 5:30 p.m. Eastern.

Giovanni's Tile Design, Inc. is a family-owned and operated business that offers a wide range of tile including porcelain, travertine, ceramic, granite, marble, and more. They also offer installation and remodeling services.

According to Metrostudy's Residential Remodeling Index, homeowners will launch a projected 12.57 million remodeling projects (costing more than \$1,000 each) in 2018, an increase from 11.96 million in 2017.

Harvard University's Joint Center for Housing Studies (JCHS) credits a strong housing market for the growth in the remodeling market. "The remodeling market continues to benefit from a stronger housing market and, in particular, solid gains in house prices, which are encouraging owners to make larger investments in their homes," says Chris Herbert, Managing Director of the Joint Center for Housing Studies. "Yet, weak gains in home sales activity due to tight inventories in many parts of the country is constraining opportunities for more robust remodeling growth given that significant investments often occur around the time of a sale."
