March 26, 2018 - PRESSADVANTAGE -

Cafe Doonan, based in Donnan, Queensland, Australia, is proud to announce that they have a new website. The new website lists the full menu and yummy treats. Each week, the cafe's Friday and Saturday night dinners are themed. Full details of the themes are also included on the new website. Furthermore, the website now allows people to book their table online.

Amy Miller from Cafe Doonan says: "We are very excited about our new website because it highlights everything that makes us so great. Each Friday & Saturday night, Cafe Doonan brings a unique three course 'A La Carte' menu. Do check back each week to find out about our menu and make sure you book a table."

The cafe prides itself on the fact that all their menu items are made in house by expert chefs. They include such items as homemade pies, cakes, salads, and much more. Each chef is highly passionate about using fresh, local ingredients as much as possible. Essentially, the cafe offers fast food, but with a healthy twist.

Cafe Eumundi Noosa, as it is also known, also hosts regular special events. For instance, by popular demand, they have organized a repeat performance of the Spirit of Leonard Cohen, which will take place on Easter Sunday. People can book their table for the event and it is recommended that they do so, as places

are limited. Jonathon Anstock will be performing the music and poetry of Leonard Cohen during the event, which will also include a three course meal.

The Cafe Doonan menu has always stood out for their many guests, which is why they often come back again and again. Peter M., for instance, says on the company's Facebook page: "It was lovely to have my local family and a few friends at a little celebration at the Cafe Doonan for my 70th. It was a joyful occasion with a fabulous custom ordered meal of Lobster and Filet Mignon and a specially organised cake for the occasion which was divine. A memorable and happy night. The Cafe Doonan with Larry and Rosie is a special place. You were terrific guys, thank you."
