SoftBreath, a sports business in New Orleans, LA, are pleased to announce that their previously sold out athletic socks have now been restocked. SoftBreath socks which have received stellar customer feedback sold out much faster than the company anticipated, forcing the company to speed up their manufacturing process. As a thank you to their customers, SoftBreath is offering a limited time 57% discount while current supplies last, as can be seen on http://www.amazon.com/gp/product/B00VUHOD6Y

"Our socks have proven to be incredibly popular with runners in particular," says Patrick Shawn from SoftBreath. "We wanted to make sure more people could try the socks for themselves by releasing them at a significant discount for a limited time. Hopefully, this will give more athletes the opportunity to work out comfortably."

As shown on http://www.amazon.com/gp/product/B00VUHOD6Y the socks are designed to fit feet up to size 11.5. The fabric is such that it allows the feet to breathe during exercise, thereby preventing discomfort and sweating. They have also been made of a very soft and comfortable fabric that stays feeling like new even after extensive wear and washing. At the same time, they offer plenty of support.

Since having first been released, the socks have received numerous positive reviews. "This is one of the best pairs of socks I own, and trust me, I own a lot, from Nike and Polo athletic socks to expensive cashmere and crew socks", says C. La. "They are extremely soft and high-quality, and I often find myself wanting to wear them for occasions that don't include running just because they are so comfortable."

The socks are available in black, grey and pink. Customers are also encouraged to visit the company's Facebook page on https://www.facebook.com/softbreathbrand where they can be kept up to date with further product developments and special offers. Additionally, it is an opportunity for customers to get in touch with Soft Breath with any questions or comments they may have. The Facebook page also includes further reviews of the socks, as well as innovative ways in which they have been used by different athletes.
