

Members Set To Benefit From Renewed Partnership Between Cutting Horse Training Online and NCHA

June 17, 2015

June 17, 2015 - PRESSADVANTAGE -

Mastering the sport of cutting has never been more accessible following the renewed educational partnership between Cutting Horse Training Online.com, the leading online training resource, and the National Cutting Horse Association (NCHA).

The renewed partnership comes after a successful first year between the two organizations, both dedicated to increasing the knowledge, skills and success of cutting horse competitors.

"Cutting Horse Training Online has developed a valuable video library of training, information and resources for any cutter," said NCHA Executive Director Jim Bret Campbell. "Coupled with NCHA's Cutting Horse Academy program, Cutting Horse Training Online allows NCHA to provide an even broader avenue for all levels of cutters to improve their cutting horse experience."

Cutting Horse Training Online.com, in its fourth year of operation, has been endorsed by the top trainers around the world and garnered the support of many leading equine professionals who provide instruction and share their valuable experience to aspiring cutters via online videos.

As part of the agreement, Cutting Horse Training Online gives all NCHA members a 10% discount off the price of any membership. This includes 3-month, 6-month and 12-month term subscriptions, which means members can enjoy a total discount of up to 30% off.

The most valuable feature about Cutting Horse Training Online.com is the fact that all the trainers are on demand 24/7, said co-founder Duncan Steele Park. Regardless of where you might be or what time of day, you can find a video from the trainer of your choice on any topic or problem you might have and watch it on your computer, or mobile device.

Among the featured trainers are such well-known names as Phil Rapp, Austin Shepherd, Lloyd Cox, John Mitchell, Matt Gaines, Tim Smith and many more. Members will find videos ranging from training methods to cattle management to nutrition.

Cutting Horse Training Online brings the trainer to you, wherever and whenever you need it! "Members can watch more than 350 videos over and over again without any limits for less than a dollar a day" Duncan said. This is without a doubt, the best tool you can use, to make you the best cutter you can be!

Duncan Steele-Park and his wife, Simone Cobb, founded Cutting Horse Training Online in 2011 for the purpose of providing exceptional educational tools and increase the performance and enjoyment of the sport of cutting. Steele-Park has operated successful training operations in both the United States and Australia, and competed as a semi-finalist in the NCHA Futurity.
