

Cruvina Shatterproof Cocktail Glasses Can Be Used At Outdoor Performances

April 03, 2018

April 03, 2018 - PRESSADVANTAGE -

Cruvina, providers of shatterproof plastic glassware, announces that their cocktail tumblers can be used to enjoy drinks during an outdoor performance.

Erin Moore, Co-Founder of Cruvina, shares "One of my favorite date-night activities is to attend the Sunset Cinema at our local beach with my husband. We enjoy snuggling on the blanket in the sand and watching the feature as the sun sets. And we always bring along a picnic basket with drinks and nibbles. This outdoor setting is no place for our fine crystal glassware. We just don't want to risk breaking the glasses and leaving shards in the grass. So we pack our Cruvina cocktail glasses. They allow us to enjoy the experience without any worry."

Cruvina cocktail tumblers allow for stress-free enjoyment of any cool beverage in the outdoors because they are made of Tritan plastic, a high-quality, food-grade, BPA-free polymer that looks like glass. This plastic is very strong and does not crack or shatter easily, even when dropped.

As well, Tritan plastic is both stain-resistant and odor-resistant. This means that the glasses retain their clarity and shine after repeated use and washings. They have a flat-bottom design that reduces the chance for tipping over, even when placed on the ground or other rough surfaces. The glasses can be used to serve any cold drinks, from cocktails or chardonnays to soda or water at any outdoor performance, from theater in the park to a concert on the beach.

Cruvina cocktail tumblers are available on Amazon and come with a 30-day money-back guarantee. Each box comes with four 14-ounce completely reusable glasses.
