

SonataHome Shower Curtain Hooks Is First Of Many Products Soon To Be Unveiled By SonataHome

June 30, 2015

June 30, 2015 - PRESSADVANTAGE -

SonataHome, a brand business in Long Beach, CA, has launched their very first product, Ez Gliding Shower Curtain Hooks. The goal of the company is to create innovative products that respond to a clear customer need and desire. All products they offer will be available exclusively on Amazon at first.

"We believe that we live in a world where anything is possible", says Kathy Stahl from SonataHome. "At the same time, however, consumers often have to choose between functionality and beauty. What we want to do with our products is offer the full package: beauty and functionality in one."

SonataHome has decided to keep their entire product line, as it expands, exclusive to Amazon. This is due to a variety of reasons. The main, however, is that Amazon is a trustworthy platform. This means that customers can shop with confidence in the knowledge that they are fully protected. To top this up, however, SonataHome offers their own personal 100% money back guarantee, no questions asked.

The new EZ gliding shower curtain hooks are made from stainless steel, which means they will not rust or otherwise corrode in the bathroom. Their design is such that they allow for a very easy gliding actions.

Furthermore, they can be used on either standard or curved curtain rods. To add beauty to functionality, as is the mission of the company, they are finished with a beautiful polished silver chrome layer. The design itself is modern, but traditional at the same time, as it has rounded curves at the top. It is the perfect accessory for any shower curtain and they can be found here <http://www.amztk.com/hooks>

As a new company, SonataHome is also focusing very strongly on their customer service. This is why they have also launched their Facebook page on <https://www.facebook.com/sonatahomeusa> This page has been designed not just to introduce customers to the SonataHome products, but also to give them an opportunity to share home improvement ideas and tips, as well as products and recipes that fit in with the lifestyle of people today. They hope that it will grow into a true community, where people can share best practice. It will also be a chance for SonataHome to be inspired by the wants and needs of their customers in order to help them create further products.

Furthermore, they have launched their Twitter page on <https://twitter.com/sonatahomeusa> Like the Facebook page, this has been designed to share ideas with others. Furthermore, it allows customers to contact the company should they have any questions or concerns, just as with the Facebook page, only using the Twitter medium. Twitter is a huge part of the world today, as is social media as a whole, and SonataHome is clearly using this to their advantage.
