

Minneapolis Painters Redesign Their Website

April 18, 2018

April 18, 2018 - PRESSADVANTAGE -

Varsity Painters, based in Minneapolis, MN, are proud to announce the relaunch of their re-designed website. The company provides interior and exterior painting services for residential and commercial clients. Their new website has a far more modern feel and is a lot more intuitive.

Steve Melander from Varsity Painters says: "We felt it was time to have our website updated and be more fit for purpose. We absolutely love the result of the redesign. It gives far greater clarity on the work that we do and it has also enabled us to add such things as a contact form, a list of employment opportunities, and so on. We can't thank the design team enough."

While the website has been redesigned, it has retained its original URL, which is www.varsitypainters.com. It also provides a lot of information on what the company can do in terms of interior and exterior painting, as well as their commercial solutions. The company, as can be seen from their Google Maps page, is highly respected and trusted for their work. Matthew M., for instance, says: "We used Varsity Painters to paint the exterior and interior of our house. Overall, the end result was great and Steve went above and beyond to make sure everything went smoothly and according to the schedule."

"Our goal is to deliver the highest quality of work on time, within budget, and with a fair price," adds Steve

Melander. "We encourage everyone to take a look at our new website and social media pages and let us know what they think. Our website also includes an easy to use contact form for anyone looking for a free, no obligation quotation."

In conjunction with the relaunched of their website, the company has also launched a social media campaign. They encourage people to like the Varsity Painters Facebook page, through which they regularly share information on completed projects, and also other pieces of advice, guidance, and news in relation to painting and decorating. The page also provides people with an opportunity to join in conversations and ask questions, as well as leave a review. Although only recently launched on Facebook, they already rank as a five star business.
