

Carrollton TX Foundation Repair Service Receives New Rave Review For Pier And Beam Repair Services

April 25, 2018

April 25, 2018 - PRESSADVANTAGE -

G.L. Hunt Foundation Repair, based in Carrollton, TX, is proud to announce that they have received a new rave review in relation to their pier and beam repair services. In the review, the customer expresses that they were very happy with the work that was done and with the additional services that were available, including financing. The company is very grateful for the customer's kind words.

Gary Hunt, owner of G.L. Hunt Foundation Repair, says: "We love hearing back from our customers because it gives us an opportunity to find out what we do well and what could be improved if ever there is a complaint. Without our customers, we obviously wouldn't be in business so their satisfaction is our number one priority. We're very happy to see that this approach is being appreciated."

In the review, the customer clearly highlights why the company is now one of the best foundation companies in the area. Indeed, this is something that is repeated throughout most of their reviews, with customers all expressing that they experienced no problems and that they are very happy with the professionalism of the company. Specifically, Ronnie Z. says on their Google Maps page: "I thought their service was pretty much as advertised. You could tell they've been doing this for a while. Price sucks (like all major home repairs), but

we used their financing so that made it easier. Their warranty seems pretty generous too - hope I don't need to use it."

This particular review was in relation to the pier and beam repair services that the company offers. Others relate to the slab repair service, something that they also specialize in. Gary Hunt continues: "We are there to make sure that structures remain solid and standing. If there is any issue, our customers and people in the Carrollton community know that they can contact us to have it resolved as soon as possible."

Anyone requiring a foundation repair Carrollton company, therefore, is encouraged to contact G.L. Hunt as soon as possible. They offer all their clients a free, no obligation estimate of the work that needs to be done.
