

Katering Koncepts Says They Will Perfect Your Next Catering Event in St George UT

July 28, 2015

July 28, 2015 - PRESSADVANTAGE -

Katering Koncepts, a full service catering business in St. George, UT, is proud to announce that they are offering event planning for any occasion. They believe that, because everybody has their own idea of perfection, they must allow people to also put their own stamp on the food served. Hence, they are offering fully customized menus for your next event.

"We believe every event is a special event, whether it is a wedding, business conference, Sweet 16 or anything else," says Doug Naetzel from Katering Koncepts. "We also believe that if the food isn't right, the event won't be a success either. People can trust us to deliver true perfection for their catering, and we ensure a customized menu so that it is perfect for their own personal needs."

Katering Koncepts sets a new standard when it comes to catering events. This is why they not only offer a comprehensive menu and customization options, they also offer other rentals. This includes everything from table cloths to dance floors and from tables to dishes. While much of their focus has been on weddings, as this is the type of event they are most often hired for, they have also had a lot of experience in events such as themed parties and corporate events.

The business also has a strong presence on Facebook, as can be seen on <https://www.facebook.com/kateringkonceptsutah>. Here, previous customers have left a wealth of positive reviews that really highlight the benefits of this company. "Southwest Exterminators has used Katering Koncepts for all of its holiday and employee appreciation dinners," says Eric Palmer. "They always do a wonderful job. Setting up, delivering great food, taking down; everything you need a catering service to do and they have the most wonderful employees doing it! Great job Kelly & Doug."

At present, the business serves Southern Utah and the surrounding area. They focus on every element that makes catering special. Food is said to be half about the flavor and half about the presentation. This is why they focus very strongly on how the food looks for their clients. Anything from their Mandarin orange, Craisins and Candied Nut Salad on a bed of Greens, to their Marinated Shrimp on a Skewer with a Spicy Chipotle Dipping Sauce looks good enough to eat, and it is as well. Along with taste and presentation, Katering Koncepts will be there when your next event has to be perfect. <http://www.kateringkoncepts.com>.
