Grand Prairie Foundation Repair Contractor Receives Glowing Review

April 30, 2018

April 30, 2018 - PRESSADVANTAGE -

Texas Foundation Pros of Grand Prairie is proud to announce that they have received a new five star review for the foundation repair work they have done for a Grand Prairie, TX homeowner. The review, which was received in early April 2018, highlighted the fantastic work completed by the foundation repair contractor has completed and this can be accessed at <https://goo.gl/n7R34J>.

Warren Gibbs, Grand Prairie homeowner, says in the review: "I talked to all my friends and co-workers about their experiences with repairing their foundation and was scared of what I was getting into. They made it easy and painless, best foundation company I've heard about."

The company prides itself in providing a service that people can rely on. Having been family owned and operated since its inception, they see themselves as true members of the Grand Prairie community. They also cover Arlington, Euless, Irving, and the Dallas Texas area. All clients are able to receive a free, no obligation quotation so that they know what to expect.

There are numerous reasons why the company has been able to receive so many positive reviews and

testimonials, as evidenced by their Yelp page at <https://www.yelp.com/biz/texas-foundation-pros-grand-prairie>. Besides their free, no obligation estimate, they also offer amazing financing opportunities and they often have discount programs available. Additionally, they offer free plumbing tests and all work completed comes with a lifetime transferable warranty for greater peace of mind.

The company is also highly aware of the geology of Grand Prairie and surrounding areas and understands its impact on how foundations move and settle. They often realize that foundations are due for repair even before the homeowner, in fact. Compressed fill soils, not properly compacted fill soils, and improper foundation maintenance are some of the most common reasons why foundations require repair. In addition to that, many of the properties in that area were built on clay surfaces, which worsens the problem.

Homeowners are encouraged to contact Texas Foundation Pros Grand Prairie through their website, which they can look into at <http://goo.gl/X925wD>, as soon as possible if they are in need of any kind of foundation repair. A representative will provide them with a free estimate as soon as possible.
