

Maryland Cosmetic Surgery Clinic Posts Article On Vaser Liposuction

May 04, 2018

May 04, 2018 - PRESSADVANTAGE -

A cosmetic surgery clinic, based in Lutherville-Timonium, MD, believes in enabling patients to make informed decisions about any cosmetic surgery procedures they are considering. This is why they are proud to announce the release of their latest blog post that is titled, 'Top 5 Reasons to Consider Vaser Lipo'.

Dr. Jeffrey Schreiber from the cosmetic surgery clinic says: "VASER liposuction is a revolutionary type of liposuction/contouring procedure that selectively removes unwanted body fat. The technique is becoming popular due to its quick recovery time and immediate results. If you haven't heard of VASER, there are five key reasons to consider it."

The blog post by Dr. Schreiber highlights the key benefits offered by Vaser. They include the fact that there is a significant reduction in downtime following liposuction, that it allows for precision sculpting, that it tightens the skin, that it leads to minimal scarring, and that it is best for those who have achieved their goal weight and wish to maintain it. Dr. Schreiber continues: "It is crucial to adopt and maintain a healthy lifestyle before addressing the stubborn fat in your trouble areas. If you have recently lost weight or are still in the process, a good rule of thumb is to make sure you can maintain that weight for a few months and then consider refining and reshaping with Lipo."

Dr. Schreiber is an incredibly popular plastic and cosmetic surgeon and hundreds of people have already entrusted him with their external beauty. Wb V., for instance, says on the clinic's website: "Dr. Schreiber is a fantastic doctor. From first consultation until my last appointment, I had the best of care. He did an amazing job and I would definitely come back if I ever want to do anymore "improvements". Thank you all so much."

The Baltimore Plastic and Cosmetic Surgery Center website enables people to schedule a free, no-obligation consultation with Dr. Schreiber. This will give them the opportunity to further discuss the types of procedures most suitable to them, including Vaser, and whether or not they are a good candidate for this particular procedure or if a different procedure can be recommended.
