

Rez Expert Launches New Website

May 22, 2018

May 22, 2018 -
DigitalRez, a company that provides reservation systems for the hotel industry, with offices in Australia, Canada and Barbados, is proud to announce that they have developed a new hotel property management system website, http://hotelpmsexpert.com/. This website highlights some key features and modules for clients that the company's RezExpert software provides. Furthermore, it explains how hotels can benefit from the RezExpert software.

Kevin Hall from DigitalRez says: "We are a company dedicated to customer service in the development, provision and servicing of the business technology requirements for the hospitality industry. With software solutions specifically designed to be fully integrated, easy to use and extremely reliable, we can cater to hospitality institutions and businesses of all types and sizes."

The property management system offers a number of important features and benefits for the hospitality industry. These include dynamic pricing, an online booking link, call accounting, a branded app, housekeeping, POS (point of sale), access control, reputation management, and credit card processing. On top of that, the RezExpert software also includes analytics, membership management, ticketing, a maintenance module, events, dynamic pace reporting, down to the minute, rate plan management, channel management, periodic billing, inventory management, and corporate accounts.

"RezExpert is the most advanced Java based property management system in the world," explains Kevin Hall. "Utilizing a powerful, easy to use grid interface that replicates the familiar calendar. The grid can switch between properties with numbers in each cell representing inventory. Easily switch to the individual unit view for listing by each unit within the property. RezExpert also provides right click functionality for shortcut access for speeding up property management access."

The new website fully explains how the software works and how the hospitality industry, wherever in the world, can benefit from it. They also offer a completely free demonstration for those businesses that want to get to know more about the property management system. People are encouraged to take advantage of this demo or to contact the team at DigitalRez for further information. A representative will be more than happy to go over the features and modules of the system in greater detail.
