Online Visibility Pros Wins Best Email Newsletter Management Services Award For 5th Consecutive Year

May 21, 2018

May 21, 2018 -

Phoenix, Arizona-based Online Visibility Pros, a leader in digital marketing for small businesses, has won the Constant Contact Solution Provider All-Star Award for the fifth consecutive year. The company provides email newsletter management services to small businesses, including those that are focused on home service, construction, trade, and blue collar service. Specifically, the company takes care of a monthly email newsletter program for clients that is designed to have an open rate of more than 25 percent for the period of one year.

Brian Horwitz, marketing expert and co-founder of Online Visibility Pros, says: "Once again, we are honored to have received this award for providing our clients with the best email newsletter management services. What this implies is that we have consistently succeeded in providing an email newsletter program that provides a significant return of investment for our clients."

The company started operating as an online lead generation firm in 2013 and since then, they have consistently won the Constant Contact Solution Provider All-Star Award every year. Their done-for-you monthly email newsletter program has been incredibly popular and this is evident from the many positive

client testimonials. For instance, Tanya S. says: "Very good experience working with these guys for more than five years now. They are very responsive and get back to me right away. We are able to easily create exactly what I want with minimum of fuss."

The team at Online Visibility Pros prides itself on being able to create email newsletters that engage the attention of potential customers. This ensures awareness about the various promotions, special offers and the different services being offered. The end result is the generation of more referral and repeat business for clients. Brian Horwitz says: "Ultimately, our goal is to ensure that our clients are successful because that would be the only time when we could say that we are truly successful."
