May 18, 2018 - PRESSADVANTAGE -

Eden Prairie realtor Stieg Strand is proud to share the 2018 survey of RE/MAX compared to other brokers. "When you break it down, the numbers prove it: RE/MAX agents continue to have leading productivity," says Stieg

RE/MAX associates once again outperformed agents with other real estate brands in the 2018 REAL Trends 500 survey. For the eighth consecutive year, RE/MAX agents in the survey on average outsold competing agents, averaging more than twice as many closed sales than agents at other participating brokerages.

REAL Trends 500 ranks the performance of top participating residential brokerage firms in the U.S. Now in its 31st year, the survey ranks real estate brands by transaction sides and sales volume for the previous year. Firms needed to close a minimum of 500 transaction sides in 2017 to qualify for the 2018 REAL Trends survey.

The company shared the comparisons in a video entitled 2018 RE/MAX VS THE INDUSTRY, for individuals

to clearly see the results. Some of the RE/MAX highlights shared from the 2018 REAL Trends 500 survey are: 17.0 transaction sides per agent, 1,036,000 US transaction sides, 30.2% brand awareness, and 7,841 offices worldwide.

"RE/MAX is the #1 name in real estate", said RE/MAX CEO Adam Contos. "Year after year, we continue to surpass our competitors in respected industry rankings and studies. The quality of our agents enables us to say that, based on residential transaction sides, nobody in the world sells more real estate than RE/MAX."

Stieg went on to say, "Being a realtor for over 20 years in Minnesota, it's rewarding to work for such a leader in real estate. The resources I have available for my clients makes everything so much easier for them and the results that much greater."

Those looking at buying or selling properties in the Eden Prairie, Chanhassen surrounding areas are encouraged to contact Stieg as soon as possible to get the ball rolling. He looks forward to creating many more happy clients.
