A breast augmentation clinic, based in Lutherville-Timonium, MD, is proud to announce that the owner and founder of the clinic has been selected as one of Baltimore's favorite plastic surgeons having received one of the Vitals 2018 Patients' Choice Awards. This award is given to those physicians who have near perfect scores, as voted by patients.

The plastic surgeon himself says: "As a board certified Baltimore plastic surgeon, I strive to provide excellent care with honesty, respect, and dignity for my patients. It is my life's passion to help people through plastic surgery whether through cosmetic or reconstructive surgery, or through my research, volunteer work, and medical mission. I am so proud to have received the Vitals Patients' Choice Award for 2018 and cannot thank my patients enough for their continued trust and faith in my work."

One of the reasons why Dr. Jeffrey Schreiber was given the award is because he has received so many positive reviews on a wealth of different channels from happy patients. Ashley N., for instance, says on Facebook: "Dr. Schreiber and his staff were outstanding. From my consultation all the way down to my post-op appointments, I felt comfortable and confident after my consultation to go on with the surgery because of the office staff's hospitality and Dr. Schreiber's reassurance. I have already recommended his office to a few friends of mine because of my amazing experience. Thank you a million to Dr. Schreiber and his staff."

The award is an indication of the excellence that Dr. Schreiber and his team always aspire for in everything that they do. Indeed, he has received other awards from Vitals. These include the Compassionate Doctor Recognition award for the years 2009, 2010, 2011, 2012, 2014, 2016, 2017 and 2018; the On-Time Doctor Award for the years 2009, 2014, 2016 and 2018; and the Patients' Choice Award for the years 2008, 2009, 2010, 2011, 2012, 2014, 2016, 2017 and 2018. The Patients' Choice Award reflects the difference a particular physician has made in the lives of his/her patients.
