

Dog Daycare & Boarding Business Launches New Website with Online Scheduling

June 11, 2018

June 11, 2018 - PRESSADVANTAGE -

ST. PAUL, MN - Dog Days Daycare & Boarding, based in St. Paul, MN, has announced the launch of their new website in which; the company also added a new online scheduling and account management system. In so doing, the company has greatly increased the user-friendliness of capabilities of their site and improved the overall customer experience.

Following the comprehensive training through Gingr, Dog Days Daycare & Boarding is able to now streamline virtually every aspect of their business. "We are most excited about offering better technology for our customers and better business systems in general." Wendy goes on to say, "This app has been specifically designed to manage dog daycare, boarding and grooming services. It has enabled us to focus far more on what we actually do - love up on the dogs - and less on the paperwork. Plus, for our customers, it is now easier than ever to manage their dogs' records, etc, make online payments and reservations for their favorite friend."

The Dog Days daycare business has facilities in three locations across St. Paul. They are fully committed to offering pet owners the peace of mind that their animals are properly looked after and cared for at all times.

Wendy Harter says: "We believe in safety, attention, care, and trust. Each of the dogs that comes to our kennels, be that for extended stays or for a few hours, receives personalized attention and is guaranteed to have a tail-wagging experience."

From the many reviews that the company has received, it is clear that people are incredibly impressed with the services that are provided. For instance, Malcolm L. says: "Brought our 7 month old pup here when we were going out of town for 5 days. We came back and she was so happy and was so well behaved it was almost hard to believe she was the same doggo." Many people are long term returning customers, seeing the daycare center as their dog's home away from home.

Those looking for a reliable dog daycare and/or boarding facility in the St. Paul surrounding areas are encouraged to contact Dog Days as soon as possible to get started. They would love to help dog owners take care of their dogs.
