G. L. Hunt Foundation Repair has recently expanded its operations into Austin, TX. The company is known for its high quality and professional yet affordable services. Since moving into the state capital, they have already been able to complete work on a wide range of commercial and residential properties and have set themselves apart as the go to company when it comes to foundation repair.

Gary Hunt, owner and founder of G.L. Hunt Foundation Repair, says: "We really have been welcomed into Austin with open arms. We can't thank our new clients enough for putting their faith in us and we're very happy to see that they have been fully satisfied with all the work that we have done."

The company has been in operation since 1987. They have gone from strength to strength since then and have been responsible for the successful repair of various foundations across the state. Moving into Austin was part of the overall expansion campaign of the business, with the goal of being able offer their services across the state of Texas as a whole. The areas of the state they are currently able to serve can be gleaned from their Google Maps page at <https://goo.gl/hoZqEC>.

Since moving into Austin, their clients have left a wealth of positive reviews. For instance, Katelyn B. says on the company's Google+ page: "When I called to get information I spoke with Abby Reid and she was very informative, clear, and extremely friendly. She made sure that I understood what was said and if I had any questions she answered them to the best of her abilities. I would definitely recommend this place of business to a friend. Thank y'all for such great customer service."

Now that G.L. Hunt Foundation Repair is fully operational in Austin, anyone requiring slab foundation repair in Austin is encouraged to contact them. Full details about the work they do and services they offer can be found on their website, which also includes an easy to use contact form. A free, no obligation estimate is offered to any client believing they require work on their property's foundation.
