FoxBrom Introduces New Larger Bottles For Those Seeking Additional Benefits Of Retinol On Skin

June 30, 2015

June 30, 2015 -
Foxbrim, a health and beauty business in Lake Alfred, FL, have recentely re-released their popular premium retinol cream in a new larger sized bottle. The product first came in a 1oz bottle, but this has been increased to 1.7oz. To celebrate, the product is available at a 47% discount, meaning it now costs just $21.95 instead of the usual $39.95. This offer is available while supplies last.

"We have had many returning customers, for which we are truly grateful", says Troy Johnson from Foxbrim. "However, as much as we enjoy selling our product again and again, the sheer volume of orders told us that customers were running out quicker than we had expected. We felt, therefore, that we would better serve our loyal customers - as well as attract new ones - by launching the bottle with an increased content."

The transition from the smaller content to the present content happened on June 8, 2015. It is important to note, however, that the content is the only thing that has changed in the product itself. The airless pump bottle packaging has remained in place, which means all the natural ingredients contained in the product remain protected and safe from oxidization. The ingredients themselves also remain unchanged.

The retinol cream is one of the best moisturizers available on the market today thanks to its advanced complex and non-irritating formula. The ingredients include the antioxidant green tea, vitamin B5 panthenol, jojoba oil, vitamin E, shea butter and many other products that have been scientifically proven to benefit the skin. Those who have used the product have stated that their skin and complexion is far more radiant, smoothing away fine lines and wrinkles on the face.

Indeed, the reviews on the moisturizer have been overwhelmingly positive, with almost 550 reviews currently having been logged on Amazon. "I love Foxbrim's products, they are always great and this one is no exception", says Brittany Nicole. "For those of us that are always busy I know a lengthy skincare regimen might not always be possible, so multi-purposed products are our best bet. The Foxbrim Complete Anti-Aging Moisturizer takes the place of a serum, targeted treatment, and a moisturizer saving us a few steps. This moisturizer has added retinol and antioxidants to target the visible signs of aging and to keep our skin looking

healthy."

Foxbrim, as can be seen on their website on http://www.foxbrim.com/products/retinol-cream, is also fully committed to customer care. This is why they encourage anybody to contact them at any time with any questions, queries or comments. Additionally, they offer a full, no questions asked, 100% money back guarantee to those who are not impressed with the results.
