The Top Dog Deals Adds Cavalier King Charles Spaniel Zone

June 12, 2018

June 12, 2018 -
The Top Dog Deals is one of the leading online stores for all things relating to dogs. Uniquely, while they offer a few items for dogs, their focus is more on enabling people to express their love for their particuar breed of dogs through things such as home furnishings and jewelry. They are proud to announce that they have added to their website the Cavalier King Charles Spaniel Zone, which is dedicated to this specific breed.

A representative from The Top Dog Deals says: "The Cavalier King Charles spaniel is a truly regal animal. Many would agree that it is one of the most stunning breeds around and we're so happy to have been able to add it to our offerings. As always, we will continue to try and find more high quality items to add to the collection."

So far, the new Cavalier King Charles Spaniel Zone includes a dress necklace, a no pull harness, two different car stickers, a cushion cover, and a 3D vintage necklace. Further items will be added as and when they become available.

Meanwhile, The Top Dog Deals is also a very social company because they have built a significant social following on Facebook and Twitter, through which they work together with their followers to identify new breeds and products to add to their collection. The representative continues: "There are so many breeds out there that we found it almost impossible to identify them all. So if there is one that you feel we have missed, do contact us and we will get to work at building a dedicated zone straightaway."

Additionally, The Top Dog Deals is highly active on both Instagram and Pinterest. Instagram is of particular interest because it has enabled people to share images of their purchases in action. The representative says: "We love to hear back from our customers and see how they showcase their love for their particular dog. So far, we have seen some stunning pictures of our wall arts adorning people's homes and images of dogs happily and safely on the backseat of a car thanks to our covers and safety belts."
